

+PLUS

CuLator Plus is perfect for maintaining a metal-free pool. Each CuLator Plus removes 1.0 ppm total dissolved metals from 20,000 gallons (and traps them inside the bag), preventing surface stains and water discoloration.

Not only does CuLator remove metals, the contents change color and identify the metals removed!

- Removes, traps and eliminates 1.0 ppm stain-causing metals (staining begins at 0.3 ppm)
- Does not affect the pH or chemistry of pool water
- Includes protective GatorEgg
- Works in fresh and salt water
- No phosphates and non-toxic
- Easy to use

CUL-PLUS-1

*Use in skimmer or pump basket

SCAN ME

Saves Time, Money, Surfaces and Water!

Recommended Uses:

- When pool water has metals
- Pools filled with well and city water
- Pools with salt water systems
- After algicide
- After stain treatments (smaller pools)
- All surfaces including vinyl, fiberglass and plaster
- When there are stones, bricks, pavers and travertine around the pool
